## GREECE ADDS DETOR TO ARMY

Claims of American Citizenship Did Not Prevent European Country From Collecting Army Time From Foreign Subject.

John Detor, who went back to Greece for a short visit is not liable to show up here again for some time. It would seem from news received by George Lycurgus, that Mr. Detor was a debtor to his country inasmuch as he neglected to put in a few years as a soldier before coming to America. The story of his enforced enlistment is as follows:

A few days after he arrived at Sparta, John was surprised to receive a notice, bearing the big red seal of the government of Greece, commanding him to appear before one of the Greek officials. The government official who had summoned him took about one minute to tell him that he owed his fatherland fourteen months army service and he must pay up at once. John protested, claimed that he was a citizen of the United States and as such owed nobody any military service. The talk didn't go. It was the army for him, and into the army he went.

## FORESTRY BOARD HOLDS MEETING

The usual reports on agriculture were submitted and read at a meeting of the board of agriculture which was held yesterday afternoon. The distribution of a large number of trees throughout the islands shows a part of the good work that is going on through this bureau.

It was reported that 1,000 Jeffrey pine, coulter pine, incense cedar and cedar cedar trees were received on the Alameda Nov. 26, and these were at once sent to Mauna Kea and Haleakala to be planted. Mr. Haugha reported that there are about 75,000 trees now on hand at the nursery and at the Makiki station.

Edward M. Ehrhorn, the entomologist of the department, reported that during the month of November thirty vessels were boarded and on seventeen of them fruits and vegetables were found. Seven lots and twelve parcels were burned. Four shipments of horn-fly parasites had been received from Mr. Koehle. Several species of the commoner scale insects have been found to be abundant in the gardens about the city.

## KAIMUKI MAY GET RESERVOIR

If the Kaimuki district gets any addition to its present water system it will have to show Acting-Governor Mott-Smith and Marston Campbell. These two workers have been putting in some heavy lifts in an endeavor to secure a sum in the neighborhood of \$43,000 for the purpose of building a new reservoir for that fast-growing district.

A construction of the law passed by the Legislature last April has been suggested which may prove to be the solution of the problem. Act 105 of the Session Laws of 1909 provides that the moneys derived from the Honolulu waterworks and sewerworks shall be apportioned, first to the expenses of maintenance and operation; second to the payment of interest upon the indebtedness of the Territory incurred for the construction, improvement and extension of the works; third, for the extension and improvement of the works, and fourth, for the payment of the indebtedness, not less than ten percent of the gross receipts to be set aside each year for the last named purpose.

It is just possible that the above may give them a show to go ahead with the much-sought-for improvement.
